COMPANY 

The Philosophy of YKK's Founder, Tadao Yoshida

YKK PHILOSOPHY | CYCLE OF GOODNESS®

“No one prospers without rendering benefit to others”

Since 1977, YKK Korea Co., Ltd. has established long-term business partnerships across various markets, including Korea's apparel, luggage, footwear, and automotive sectors, as well as the fabric and sewing industries. However, we are currently facing challenges due to a shift in sourcing to developing countries with lower labor costs.

Nevertheless, I strongly believe that our Korean business partnerships can continue to play leading roles in the global apparel, fashion, and sewing industries by leveraging our extensive experience and expertise in fashion, design, planning, and sewing technologies.

We, YKK Korea, as a 'Total Fastening Solution Company,' promise our customers top-quality services and fastening products. We strive to support our partners during these changing economic times by strengthening value chains.

YKK Korea is committed to supporting the continued growth of our customers and the Korean fabric and sewing industries as a whole..

Keep one step ahead with YKK.

YKK Korea Co., Ltd. CEO
Urushihara Wataru

YKK Fastening Products Group

YKK, a Global leader of fastener industry was established in 1934 in Japan.
The YKK Group has expanded to 68 companies worldwide.

Our business scopes include Fastening Products, Machinery & Engineering, and Research & Development. And we have practiced CYCLE OF GOODNESS® which is Tadao Yoshida's Philosophy.

Since 2000 through 2003, we have continuously worked to meet market demand and satisfy our customers by enhancing production capacity, leading to the expansion of the 1st and 2nd Pyeongtaek Factories. As a result, YKK Korea has gained significant attention within the YKK Group.

YKK leads the Global fastening market

YKK GLOBAL HISTORY

1934 ~

Foundation to Establishment
Of the Integrated Production System

1959 ~

Global Expansion

1934

Foundation

Founded in Nihonbashi Kakigara-cho, Tokyo (at center of photo); engaged in the processing and sale of metal zippers

1939

YKK utility model No.1

Metal slider for zippers

1946

YKK registered as a trademark

Zipper stamped "YKK"

1950

From a handicraft industry to
Mechanization

Four zipper chain machines imported from the U.S.

1952

Establishment of a fully
integrated production
system

Predecessor of the former Machinery & Engineering Group Launched

1953

YKK patent No.1

Intermittent chain production machine developed

1959

Global expansion

Exported zipper manufacturing equipment to India
Opened first overseas base in New Zealand

1964

Achieved
high - speed
manufacturing

Commenced manufacturing using the YKK-CM6

1974

Launched integrated
production system overseas

First overseas integrated zipper production plant

YKK (U.S.A.) Inc. Macon Plant

GLOBAL OF YKK

Philosophy | YKK seeks corporate value of higher significance.

YKK Group companies seek to delight our customers, earn the high regard of society and make our employees happy and proud.

We are improving the quality of our products, technology, and management as the means to achieve this.

We make fairness the fundamental standard for all YKK Group business operations, and this is the basis for our management decisions

**YKK will pursue innovative
quality in the seven key areas
shown on the right.**

Quality Policy

YKK Korea provides safe, secure and attractive products that are in line with the 'YKK BRAND' in accordance with the YKK Group Quality Charter to customers around the world in response to diversifying market needs. To achieve this, we operate the quality management system accurately and establish a consistent quality assurance and management system from planning, design, purchasing, manufacturing, sales, logistics, and disposal. Furthermore, all employees stand from the customer's point of view and work with creativity, promptness, and initiative to prevent recurrence of quality problems and prevent them from occurring, and to realize 'the best quality at the lowest quality cost' through continuous improvement and reduction of irregular quality problems.

Policy for Safety hygiene

YKK Korea recognizes that ensuring the safety and health of all employees is the foundation of its corporate activities, and in addition to complying with relevant laws and regulations, YKK Korea operates the following behavioral guidelines with the full participation of all employees, and continuously promotes the creation of disaster-free people and disaster-free environments by raising awareness of risk management.

Environmental Declaration

Based on the YKK Group Environmental Declaration, YKK Korea Corporation will create new value by utilizing its environmentally friendly technologies and contribute to the creation of a sustainable society.

By strengthening our global environmental management system with the participation of all employees, strictly complying with environmental regulations, contributing to a society in symbiosis with nature, promoting energy reform, and striving to reduce environmental burdens, we will promote the compatibility of economic activities with environmentally friendly activities.

Information Security Policy

With the development of information and communication technologies, new and emerging threats can have a serious impact on YKK Korea's information assets, making information security activities indispensable. Therefore, all employees of YKK Korea must do their utmost to thoroughly consider the legal, social, and ethical implications of the loss of important information assets, delays and degradation of business, and various legal, social, and ethical consequences from various security threats, including internal and external hacking and information leakage, and make appropriate preparations accordingly.

YKK Group Code of Conduct

YKK Group has established the YKK Group Code of Conduct that sets the scopes of behavior of which YKK Group employees in all countries and regions should be aware.

YKK GROUP Intro

- Foundation : 1934

-
- YKK Group Sales : 920.2 billion yen (2024.3.31)
 - YKK Group 70 countries/regions, 142 companies (2026.3.31)
 - Number of Employees : 56,899 people (2026.3.31)

YKK Fastening Business Regions

(Refer to pg. 4 of This is YKK 2025.)

Sustainable Management

YKK Global Criteria of Compliance (YGCC)

YKK established the YKK Global Criteria of Compliance (YGCC) to ensure that YKK deploys and carries out proper and effective compliance programs to conduct transparent business activities.

Based on the YGCC, each YKK Group company in the world conducts internal and external audits of management systems, human rights, labor practices, the environment, health and safety, and fair business practices, working to strengthen and continuously improve YKK's compliance system. the standards are regularly revised based on the societal demands.

YKK conducts annual audits of YKK Group factories, regular assessments and improvement activities for sustainability based on the following criteria

01 Management System

02_ Labor Condition

03 Hours and Wages

04 Safety and Health

05 Environment

06 Fair Business Practice

CYCLE OF GOODNESS® and Value Creation

From CYCLE OF GOODNESS® to a Sustainable Future

YKK sustainability vision 2050

YKK's action plan for a sustainable future

Aiming for Climate Neutrality as a Company that Co-exists and Co-prospers with Society and the Natural Environment

In 2020,
YKK launched its
Sustainability Vision 2050.

We have set targets on five themes - climate change, material resources, water, chemicals management and respect for people - and are committed to achieving climate neutrality by 2050 in line with the relevant SDGs.

Climate change

Develop business activities that are adapted to climate change and curb its effects

In order to combat global climate change, YKK commits to greenhouse gas emissions reduction targets that are required to meet the goals of the Paris Agreement-to limit global warming to below 1.5°C above pre-industrial levels and - we will work to reduce GHG emissions with the aim of becoming carbon neutral by 2050. Furthermore, we will adapt to climate change and develop stable business activities.

Material resources

Achieve monozukuri to boost sustainable use of material resources

By reducing the environmental impact of products manufactured by the Fastening Business and in the packaging materials used, and by shifting to sustainable materials, we aim to reduce waste generated through the life cycle of products, reduce the use of petroleum-derived materials, and contribute to the realization of a circular society, while protecting ecosystems and expanding activities to enrich them.

Water resources

Implement sustainable water use

For sustainable water use, we will work to reduce the burden on local communities and ecosystems by reducing water intake and strengthening wastewater management according to local conditions.

Chemical management

Manage and reduce chemical usage

In order to ensure a healthy environment for future generations, we will work to minimize the impact of chemical substances on the natural environment and people through appropriate management and by reducing the amount used

Respect people

Uphold human rights and ensure fair, safe work environments

YKK believes in the universal philosophy of respecting the dignity and rights of all human beings and is committed to contributing to a diverse and sustainable society.

YKK Sustainability Vision 2050

Achieve climate neutrality by 2050

 Climate change	 Material resources	 Water resources	 Chemical management	 Respect people
By 2030 - GHG emission - Scope1, 2: 50% reduction - Scope3: 30% reduction By 2050 - Be carbon neutral	By 2030 - Switch to 100% sustainable textile material. - Replace all vinyl/ plastic packaging materials with sustainable packaging. - Reduce the amount of waste.	- Reduce our water intake through efficient usage, the development of new water saving production methods, and the increased recycling of wastewater. - Strictly manage wastewater at all manufacturing sites in accordance with Government regulations and YKK in-house standards established based on industry standards.	- Manage and further reduce the use of chemical substances in accordance with our own standards. - Our finished products meet industry standards such as Standard 100 by OEKO-TEX® ensuring they are free of harmful substances. - Develop new production methods that reduce and eliminate the use of toxic chemicals.	- Valuing diversity, being inclusive, respecting human rights, and improving the work environment. - Implement YGCC audit, a comprehensive standard based upon YKK's "Cycle of Goodness" philosophy and the ISO26000 guidelines.

YKK KOREA Support

(Information becomes available after scanning the QR code..)

Counterfeit Watch out for counterfeit YKK zippers!  Recently, counterfeit YKK zippers have been distributed throughout Asia. To make matters worse, garments and footwear containing these products are seen frequently worldwide. In order to tackle this problem, YKK has developed a program to help protect our trademark rights, and also our customers from inferior quality resulting from the use of fake YKK zippers.	Testing Methods There are various methods by which to evaluate zipper strength.  The basic strength can be determined based on the results of the following inspection methods, from which overall strength appropriate for respective uses can be judged. (Based on JIS-S3015 and ASTM D2061) (Tensile tester: Tensile velocity is 300mm/min. Clamp width is 25mm)	Product Inquiries We will resolve any questions about the product.  - FASTENER / T&P / SNAP&BUTTON / SUB-MATERIAL Inquiry : saleskorea@ykk.com - E-mail Subject : YKK Product inquiry(or product name) - Your name, e-mail address, company/dept., position, contact numbers must be included with your inquiry.
